Learning Hub

Freemium courses, catalogue overview and learning journeys

Build digital, AI, technology and business capability continuously. Always available, relevant to roles and measurable from the first month.

Freemium

64 curated courses across four capability categories. Free for three months, with monthly adoption reporting. No card and no automatic renewal.

Learning Hub

760 foundational and intermediate courses organised into role-based pathways.

Learning Hub Plus

919 courses across 17 categories, including 159 advanced courses, 51 live programmes, practical labs and four mentor hours.

Explore and start: deviare.africa/learning-hub

Enquiries: sales@deviare.africa

Vendor-aligned certification paths included. Exam vouchers quoted separately where mandatory.

Freemium course list

Digital Business & Delivery

13 courses · Lead and deliver change

- 01 Agile Estimation, Planning, and Progress Tracking
- 02 Driving Agile Adoption and Transformation
- 03 Foundations of Agile and Frameworks
- 04 Getting Ready for the Big Leap Towards SAFe Success
- 05 SAFe Disciplines and Big Picture
- 06 SAFe: Moving from Software Teams to Organization
- 07 Scaling Agile Launchpad Foundations for Enterprise Delivery using SAFe
- 08 Scrum Roles, Events, and Artifacts in Practice
- 09 Understanding Agile for Complex Projects
- 10 Task Management Basics using Asana
- 11 Building Rapport and Trust Across Teams
- 12 Collaborative Problem-Solving and Negotiation
- 13 Strategic Thinking and Business Model Innovation

Freemium course list

Data & AI

25 courses · Insight and automation at scale

- 01 Deep Learning Frameworks: PyTorch vs. TensorFlow
- 02 Deep Learning Specialization: CNNs, RNNs and Transformers
- 03 Data Visualization with Tableau Basics
- 04 Foundations of Databases and PostgreSQL Environment Setup
- 05 Mastering Power BI: Data Modeling, DAX and Performance Optimization
- 06 Mathematics and Statistics Essentials
- 07 Overview of Business Analytics
- 08 SQL Fundamentals and Data Operations in PostgreSQL
- 09 AI for Entrepreneurs and Startups
- 10 AI for Everyone
- 11 Building Intelligent Workflows with LangGraph Agents
- 12 Designing Multi-Agent Systems with AutoGen for Advanced Task Automation
- 13 Foundations of Agentic AI and LLM-Powered Architectures
- 14 GenAI-Assisted Code Generation using GitHub Copilot with JavaScript
- 15 Generative AI for Managers and Decision Makers
- 16 Generative AI Fundamentals: Concepts, Use Cases, and Practical Essentials
- 17 Generative AI in Code Migration and Optimization with JavaScript
- 18 GitHub Copilot in Software Deployment with JavaScript
- 19 GitHub Copilot in Software Testing with JavaScript
- 20 Google Gemini for Everyone
- 21 Microsoft 365 Copilot Training for Finance
- 22 Microsoft 365 Copilot Training for HR
- 23 Model Context Protocol (MCP) for Agentic AI
- 24 Orchestrating Agent Teams with CrewAI
- 25 Strategic Leadership in the AI Era

Freemium course list

Technology

15 courses · Build and secure the stack

- 01 Advanced DevOps Monitoring with Prometheus and Grafana
- 02 Advanced Docker: Orchestration, Security & Microservices
- 03 Basics of DevOps and DevSecOps
- 04 Centralized Logging and Monitoring
- 05 Containerization with AWS
- 06 DevOps Monitoring Essentials with Prometheus
- 07 Essentials of Cloud Computing
- 08 Exploring Advanced Concepts in Git
- 09 SRE with DevOps, CI/CD & Automation
- 10 Terraform for Beginners
- 11 Basic Digital Safety
- 12 Cyber Security Basics
- 13 Introduction to Semiconductors
- 14 Learn Amazon Q Developer: Beginner Coding Assistant for Java
- 15 Learn Amazon Q Developer: Beginner Coding Assistant for Python

Freemium course list

Digital Literacy & Growth

11 courses · Everyday digital fluency

- 01 Digital Communication Basics
- 02 Digital Fundamentals
- 03 Digital Safety and Security Basics
- 04 Document Essentials: MS Word & Google Docs
- 05 Documentation and Presentation
- 06 Excel and Google Sheets: Essentials for Data Analysis
- 07 IT Infrastructure Fundamentals
- 08 Slides Essentials: MS PowerPoint & Spreadsheet
- 09 Worksheet Essentials: MS Excel & Spreadsheet
- 10 Assertive Communication Without Aggression
- 11 Mastering Business Writing and Email Etiquette

Learning Hub catalogue

Full catalogue overview: 919 courses across 17 categories

The full catalogue includes Learning Hub and Learning Hub Plus. Advanced content availability depends on your plan. The categories below describe the full catalogue; individual titles for all paid courses have not been supplied. Ask Deviare for the current plan-specific course list.

Technology • 328 courses

Cloud Computing & DevOps: 158 courses

Software Development: 95 courses

Cyber Security: 75 courses

GenAI Academy • 182 courses

Generative AI: 182 courses

Data & AI • 179 courses

Data Science & Business Analytics: 83 courses

AI & Machine Learning: 56 courses

Data Engineering: 36 courses

Big Data: 4 courses

Business Skills • 99 courses

Digital Marketing: 46 courses

Business & Leadership: 41 courses

Product and Design: 12 courses

Power Skills • 89 courses

Personal Development: 76 courses

Digital Literacy: 13 courses

Industry Certifications • 42 courses

Agile and Scrum: 20 courses

Quality Management: 10 courses

Project Management: 8 courses

IT Service and Architecture: 4 courses

Learning journeys

67 journeys: 17 master programmes and 50 self-paced paths

Technology

AWS Cloud Architect Masters Program
